

Your Smile *by Matt Isherwood*

C G D Em
Your smile, how it takes my breath away

C G D Em
Your smile, beautiful in every way

C G D Em
Your smile, getting brighter every day

C G D G Em C
Your smile, and so I say
D G Em C D
U-wo-oh and so I say

G Em
I've got a picture,
C D
A photo of you in my mind
G Em
And where I wonder,
C D G
I take you with me all the ti-ime

Em
And in that picture
C D G
Your happy laughter follows after me
Em

It resonates, and as I contemplate
C D
Your face I start to see.

Your smile, how it makes me want to sing
Your smile, all this joy one face can bring
Your smile, how it's lighting up this place
Your smile, upon your face
U-wo-oh upon your face
